CareerFull, Backend Developer | FreeLancing

Aug 2023

- Interview prep platform connecting students with expert mentors for personalized, **slot-based sessions**, integrating NODemailer for **OTP verification**

Skills

Programming	C, C++, Java, ReactJS, NextJs, MongoDB, NodeJs, ExpressJs, Redux, ReduxToolkit, Javascript, Git, Node Package Manager
Coursework	Object Oriented programming, Python, R, Data Structure and Algorithm, Operating System, Computer Architecture, Computer Network, Artificial Intelligence, Database Management System
Tools/ToolKits	Github, VS code, Bash, Vim, Figma, Canva, OpenAI, Temporal, Postman, Linux

Projects

One Stop Fitness Solution

March 2023 - April 2023

CrossFit, MERN Stack

[Link](#) | [Code](#)

- Delivered personalized fitness experiences through a full-stack web application incorporating: **Customizable GYM and DIET plans**, 24/7 interactive FIT BOT powered by OpenAI API, Engaging community, Integrated e-commerce functionality (FITMART)
- Built a user-centric solution achieving: **100+ active users**, **300+** personalized diet and gym **plans** generated, **30+ positive user feedback** and testimonials

Connect, Buy and Sell

Jan 2023 - May 2023

MarketPlace, MERN, Tailwind CSS

[Link](#) | [Code](#)

- Led the development of a full-stack **marketplace** web application using MERN and Tailwind CSS.
- Successfully integrated **Stripe payment gateway**, a comprehensive admin dashboard for efficient product management and automation of key tasks.
- Delivered a user-centric experience with distinct buyer and seller account sections, **tailored UI/UX**, and optimized functionality.

Sorting Visualizer

Dec 2022 - Jan 2023

Learn through Visualization | ReactJs, TailwindCSS

[Link](#) | [Code](#)

- Web application made using ReactJS for naive students to understand **Merge sort**, **Selection sort**, **Insertion sort**, **Bubble sort**, **Quick sort** using Visualization.
- User can change the sorting speed and array size based on their requirement and also see Time complexity of given Sorting Algorithm.

Achievements

- 1470+(Specialist)** rating on **Codeforces**, **1860+** rating on **Leetcode** (Knight), **1500+** rating on **Codechef**.
- Secured All India Rank of **85** and global rank of **844** **Codeforces** contest 920 division 3 round out of **39000+** participants.
- Secured All India Rank of **743** and global rank of **2.1k** **Codeforces** contest 904 division 2 round out of **27000+** participants.
- Got a global rank of **1190** in **Leetcode** Biweekly contest 111 among **28500+** participants.
- Secured **2nd** position in MANAN-A-THON coding contest organized by J.C Bose University of Science and Technology, Ymca.
- 120+ Active Users** on Crossfit with more than **400+** gym and diet plan already created by them and more than 40+ feedbacks and reviews recieved till now.

Extracurricular

- Technical Team** head at Google Developer Student Club (**GDSC**)
- Organized and Problem setter for 5+** coding contest in college (YMCA).
